SUMMARY

A Computer Science graduate with a strong foundation in Object-Oriented Programming. Proficient in full-stack Java development using Spring Boot and Hibernate. Demonstrated ability to develop, test, and maintain software applications through hands-on projects and internships. A collaborative and adaptable team player eager to contribute to high-impact projects and committed to continuous learning in a dynamic environments.

EDUCATION

Siddharth Institute of Engineering and Technology | Puttur,AP

B.Tech, Computer Science and Engineering | 2025 | Percentage:85%

St. Joseph Junior College | Kadapa,AP

Intermediate Education,MPC | 2021 | Percentage:89%

Z P High School |Chilamkur,AP

Class 10 (SSC) | 2019 | Percentage:88%

EXPERIENCE

Full Stack Web Development Intern

TapAcademy | BTM, Bangalore

- Developed and maintained full-stack web applications using Java, JSP, Java EE, Hibernate, and Spring, following coding best practices.
- Designed, tested, and optimized database schemas using MySQL, OOP Principles, Solid design patterns, writing complex queries to ensure data integrity and performance.
- Contributed to all phases of the SDLC, from requirement analysis and planning to deployment.
- Participated in code reviews and debugging sessions to ensure code quality and share knowledge with the team—gaining experience in collaborating with cross-functional teams.

PROJECTS

Online Quiz Management System | Java (JSP/Servlets, JDBC, Java EE), SQL, Hibernate

- * Developed and Maintained a full-stack web application with role-based login ,secure session-based authentication and Utilized a servlet-based MVC architecture .
- * Developed Admin Dashboard for managing quizzes and questions.
- * Enabled students to take quizzes online with optimizing software for performance.
- * Integrated MySQL database via JDBC to store users, quizzes, questions, and results.
- * Utilized Hibernate Query Language (HQL) for complex database operations and criteria API for dynamic query generation
- * Designed a responsive, interactive front-end using HTML, CSS, and JavaScript.

Book Management System | Spring Boot, REST APIs (CRUD), MySQL

- * Developed, tested, and maintained a CRUD application using Spring Boot and RESTful API.
- * Implemented GET, POST, PUT, DELETE endpoints for book managing records.
- * Implemented unit tests using JUnit and performed validation testing
- * Connected the application to MySQL for persistent storage.
- * Tested all API endpoints using Postman.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript

Frameworks - Libraries: Spring Boot, Spring MVC, Hibernate, Java EE, JSP,JSON

Databases: MYSQL

Concepts: Object-Oriented Programming (OOP), Data Structures Algorithms, REST APIs, SDLC/Agile methodologies, JDBC, Multithreading.

Developer Tools: Git, GitHub, Eclipse, Postman, Spring Initializr, Swagger UI, Maven Build tool
